CRAFTCO'S

5-AXIS WATERJET

A CUT ABOVE THE REST

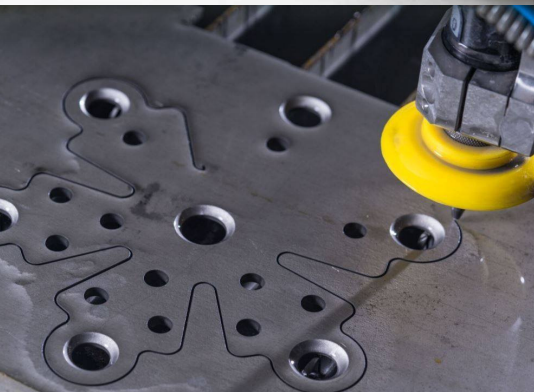

CRAFTCO

MANUFACTURING SOLUTIONS.

CRAFTCO'S WATERJET CUTTER - THE MACH 500

- 5-axis capabilities that enable us to cut beveled and tapered edges
- 13' 1" x 6' 6" cutting envelope
- Can cut parts up to 12" thick
- 94 ksi operating pressure - Higher than most waterjets - Lowers cutting time and amount of garnet used - Lowers your part's overall cost
- Cuts parts with tolerances up to ± 0.001 "
- Cuts almost ANY material: metal, plastic, stone, wood, glass, cloth, composites and many other types of materials
- Edges have no heat affected zone (H.A.Z.)
