Join Our Manufacturing Team in Beautiful Sheridan, Wyoming!

Are you looking for an exciting opportunity in the manufacturing industry? Our fast-growing facility, located in scenic Sheridan, Wyoming, is searching for dedicated Machine Operators to become part of our close-knit team.

Job Details:

- **Job Type:** Full-time
- **Shift and Schedule:** Day shift
- **Location:** 680 Airfield Ln, Sheridan, WY 82801

Benefits:

- **401(k) & 401(k) Matching:** Secure your financial future with our retirement plans.
- **Dental, Health, and Vision Insurance:** Comprehensive coverage for you and your family.
- **Flexible Schedule:** We understand the importance of work-life balance.
- **Paid Time Off:** Recharge with paid vacation and holidays.
- **Relocation Assistance:** We provide support to help you move to Sheridan.

Job Summary:

The Machine Operator is responsible for operating and maintaining various types of machinery in a manufacturing setting. This includes CNC mills, lathes, press brakes, laser cutting machines, and waterjet cutting machines. The role involves ensuring that equipment runs efficiently, producing high-quality products, and adhering to safety standards. While we prefer candidates with relevant experience, we are also open to hiring individuals who demonstrate a great attitude, strong work ethic, and a willingness to learn and grow within our company.

Key Responsibilities:

- **Operate Machinery:** Set up, operate, and maintain CNC mills, lathes, press brakes, laser cutting machines, and waterjet cutting machines in accordance with company standards and safety guidelines.
- **Monitor Production:** Continuously monitor machine operation to ensure quality and productivity. Make adjustments as needed to maintain optimal performance.
- **Quality Control:** Inspect products to ensure they meet specifications. Identify and report any defects or issues.
- **Maintenance:** Perform routine maintenance on machines, including cleaning, lubricating, and minor repairs. Report major maintenance needs to the maintenance department.
- **Safety Compliance:** Follow all safety protocols and wear appropriate personal protective equipment (PPE). Report any safety hazards to the supervisor.
- **Documentation:** Accurately complete production logs, maintenance records, and other required documentation.
- **Team Collaboration:** Work closely with other team members and departments to ensure smooth production flow and resolve any issues that arise.
- **Training:** Assist in the training of new machine operators as needed.

Qualifications:

- **Experience:** Previous experience operating CNC mills, lathes, press brakes, laser cutting machines, or waterjet cutting machines in a manufacturing environment is preferred but not required.
- **Education:** High school diploma or equivalent.
- **Skills:**
 - Proficiency in operating and troubleshooting CNC mills, lathes, press brakes, laser cutting machines, and waterjet cutting machines.
 - Strong attention to detail and quality control.

- Basic mechanical aptitude.
- Ability to read and interpret technical documents and drawings.
- Good communication and teamwork skills.
- Basic math skills for measuring and calibrating.

Work Environment:

- Exposure to loud noise, dust, and varying temperatures.
- Use of protective equipment such as gloves, safety glasses, footwear, and hearing protection.

Company Culture:

At Craftco, we pride ourselves on being a hard-working team that knows how to have fun while getting the job done. We encourage camaraderie among team members and foster an environment where everyone feels supported. We place a strong focus on supporting our employees' families and understand the importance of schedule flexibility.

Join us in Sheridan, Wyoming, where work meets play, and the opportunities are boundless. If you're passionate about operating machinery, value a supportive team environment, and are ready to take your skills to the next level, we want to hear from you!
